

CURATORIAL SERVICES

The San Diego Archaeological Center (the Center) is a nationally recognized leader in the curation of archaeological collections, curating collections for the Department of Defense, City of San Diego, and private parties. The Center accepts for accession archaeological collections to preserve in perpetuity for the benefit of the public. The Center makes every effort to make the collections available to the public as a cultural resource through educational exhibits, tours, volunteer opportunities, student internships and cultural use.

The Center maintains archaeological collections in accordance with “The Curation of Federally-Owned and Administered Archaeological Collections” (36 CFR Part 79), State of California Resources Agency’s 1993 *Guidelines for the Curation of Archaeological Collections*, the National Park Service *Museum Handbook*, Part I, Museum Collections, culturally-affiliated and cultural group advice, professional museum and archival practices and any other relevant and appropriate recommendations as to the care of archaeological collections and archives in order to prevent degradation of collections by human or environmental factors.

San Diego Archaeological Center Curation Fees 2022-2023	
Accession fee for collections packaged in accordance with the Center’s recommended Collection Preparation Guidelines (One-time fee, Center assumes title to collections)	\$1,200 per box* \$300 for quarter box \$350/cubic foot per oversized item \$150 collections processing fee (includes NAGPRA assessment)
Revitalization (bringing collections that are lacking inventory, labels, etc. up to 36 CFR Part 79 standards)	\$250 per box
NAGPRA assessment <u>only</u>	\$150 per box
Curated collections (curated under 5-year, renewable curation contracts)	Contact Center Collections Manager for contract rates

*A box is a standard 15" x 12" x 10" archival storage box, **30-pound weight limit**.

Types of Collections Accepted

Collections accepted for curation or accession may include any objects and associated documentation considered to have archaeological significance from San Diego County, and contracted areas under curation agreements with government agencies, if they are in keeping with the mission statement of the Center. Acceptance of archaeological collections from within San Diego County has priority over collections originating from outside San Diego County. The Center may charge more for curation of collections originating outside of San Diego County.

General Provisions

1. The Center will employ its approved Operations Manual regarding collections management procedures.
2. The Center will provide storage (housing and maintenance) for these collections in a manner that meets federal standards for long-term curatorial.
3. The Center will meet the Secretary of the Interior’s Historic Preservation Proposed Revised "Professional Qualification Standards" of November 1994 for cultural resource consultants in the field(s) of prehistoric archaeology, historic archaeology, or curation and be able to provide long-term curatorial services as described for a repository in 36 CFR Part 79.
4. All the work, except for the effort involved in transporting the collections, will be conducted at the Center’s facilities in San Diego County, California.
5. All work performed under this contract will comply with health and safety regulations.

6. The Center will maintain insurance during the entire period of performance under this contract, the following minimum insurance coverage:
 - a. comprehensive General Liability: \$1,000,000 per occurrence.
 - b. worker's Compensation as required by Federal and State worker's compensation and occupational disease statutes.
 - c. employer's Liability coverage: \$100,000, except in states where worker's compensation may not be written by private carriers; and
 - d. others as required by State Law.

Inventory Verification Services

Center personnel will:

1. Conduct condition assessment to evaluate general condition of the collection, including:
 - a. condition of boxes, bags, bag labels, object labels, and box labels.
 - b. organization of collection by material class separation and site number.
 - c. assess for evidence of mold, insects, pests, and dirt.
 - d. assess for presence of computer data, catalog, associated records, previous NAGPRA Inventory; and
 - e. document total number of boxes of artifacts and associated records, unboxed artifacts and estimated total number of artifacts.
2. Conduct catalog verification and perform item-by-item verification of artifacts against provided catalog and associated documents including:
 - a. document missing artifacts.
 - b. document non-cataloged artifacts.
 - c. identify and document particular conservation needs; and
3. The Center will furnish all facilities, materials, supplies, and equipment necessary for inventory verification performed under this contract.

Collection Organization Services

Center personnel will:

1. catalog collection according to standardized and improved nomenclature.
2. enter catalog data on computer database.
3. reorganize collections according to material class, object name, and material type.
4. organize artifact collection by site number and material class.
5. prepare inventory of each box for ease in locating individual artifacts; and
6. assign a unique number to each box and unboxed artifact and record curation location by room, storage unit and shelf for ease in locating each box.

Archival Packaging Services

Center personnel will:

1. replace boxes, bags, bag labels, object labels with archival quality materials.
2. copy associated documents onto acid-free paper and place in archival-quality boxes; and
3. place large documents, photographs, maps, and other large-format associated documents in appropriate archival-quality containers.

Curatorial Services

Center personnel will:

- a. provide all aspects of collections care and management as specified in the San Diego Archaeological Center Operations Manual.
- b. label boxes and objects for curation.
- c. place collection in storage area and record location.
- d. perform daily monitoring of environmental conditions.
- e. perform monthly and quarterly inspections and reports.
- f. accept, evaluate, and transmit requests for use of the collections.
- g. aid in use of collections, including access, processing loans, retrieval, and replacement of artifacts.
- h. accept and provide notification of requests to transfer or repatriate any collections (material remains or associated records) within 24 hours.
- i. provide management in emergency situations.
- j. provide security for collections; and

- k. observe culturally affiliated group suggestions and directives concerning access, handling, storage, inspection, inventory, cleaning, conserving, labeling and exhibition of archaeological artifacts in consultation with recognized and approved American Indian advisors.

NAGPRA Inventory Services

Center personnel will:

1. assess collection for items which may be subject to Federal NAGPRA and California NAGPRA, including human remains, associated and unassociated funerary objects, sacred objects, and objects of cultural patrimony.
2. prepare a summary of unassociated funerary objects, sacred objects, and objects of cultural patrimony for distribution to culturally affiliated groups.
3. prepare an inventory of human remains and associated funerary objects for distribution to culturally affiliated groups.
4. provide facility and staff for American Indian consultations.
5. observe special requests from culturally affiliated American Indians concerning the packaging, handling and transportation of objects destined for repatriation; and
6. administer and execute repatriation after notification in the Federal Register or California Repatriation Oversight Commission.

Collections Availability for Research, Education and Religious Interest

1. The Center will accept and consider requests for use of collections in accordance with the approved Center Operations Manual.
2. The Center will make collections available for scientific, education, and religious uses, in accordance with 36 CFR Part 79.

Requests for Transfer or Repatriation

The Center will process any requests to transfer or repatriate any collections (material remains or associated records).

Inspections and Inventories

1. The Center will inspect and inventory the repository on a quarterly basis.
2. The Center will also make the collections containing religious items available to official tribal representatives, religious leaders, and elders from Indigenous tribes for which the remains have religious or sacred importance.

EXHIBITION AND ASSESSMENT SERVICES

Assessment of Cultural Resources Needs

1. The Center will evaluate the general condition of collections on the installation, including:
 - a. evaluate condition of storage facilities.
 - b. evaluate condition of boxes, bags, bag labels, object labels, box labels and overall packaging.
 - c. evaluate of collections organization by material class separation and site number.
 - d. assess for evidence of mold, insects, pests, and dirt.
 - e. assess for presence of computer data, catalog, and associated records.
 - f. assess need for NAGPRA summary and/or inventory.
 - g. document total number of boxes of artifacts and associated records, unboxed artifacts, estimated total number of artifacts; and
 - h. identify and document particular conservation needs.
2. The Center will prepare a report documenting the findings and an estimated budget for the upgrade of collection to meet 36 CFR Part 79 standards and our approved Collection Preparation Guidelines.
3. The Center will evaluate any on-site curation repository facilities, or plans for a repository, for compliance with 36 CFR Part 79 and National Park Service recommendations for curation facilities.

Please contact us for our assessment planning pricing and availability.

Exhibit Planning, Production, and Installation

Archaeological exhibits are an efficient and effective way to share cultural resources with the public and base personnel. Center staff have many years of experience using artifacts as visual, tactile, and spiritual evidence

of the cultures that make up our communities, keeping in mind the diverse interpretations and ethnic patrimony of the objects on exhibit. Center staff can produce temporary, semi-permanent, and permanent exhibits.

1. The Center will meet with the designated Point of Contact (POC) to create an exhibit concept in accordance with the desired appearance, message, budget, and appropriateness.
2. After review and approval of the exhibit concept, Center staff will produce the exhibit including text, images, text panels, artifact mounts and exhibit furniture.
3. Specific dates of installation and deinstallation will be reviewed with the POC.

Please contact us for our exhibit planning pricing and availability. Consumable supplies and materials are not included and would be billed separately.

KEY STAFF

Key personnel meet the Secretary of the Interior's Historic Preservation Proposed Revised "Professional Qualification Standards" of November 1994.

Stephanie Sandoval, Executive Director

Stephanie Sandoval (B.A. History, Sanoma State University; M.A. Anthropology, San Diego State University) has broad experience in archaeological, educational, and administrative fields. She has been with the San Diego Archaeological Center since 2016 and has led efforts in educating the public about the importance of cultural resource preservation. Stephanie is responsible for the overall management and operations of the SDAC and provides leadership in all service and program areas.

Jessica McPheters M.A., Collections Manager

Jessica McPheters (B.A. History, San Diego State University; M.A. Museum Studies, John Hopkins University) is the SDAC Collections Manager and has experience working as a collections steward at various types of museums and historical societies around the country beginning in 2013. Passionate about the care of artifacts, museums, and material culture in general, Jessica takes preventative conservation very seriously. In addition to the curation of incoming collections and the proctoring of research and volunteers, Jessica spends much of her time performing collections inventories, gallery maintenance and scheduled housekeeping, and integrated pest management. As a part of the SDAC team, her goals include generating collaborative opportunities with local universities and communities to enrich and mentor students or community members that are interested in collections management, museums, and archaeology. Jessica continues her professional development by educating herself in current and trending collections management best practices, to guarantee that SDAC collections stewardship meets and exceeds standards.
